Markdown, \LaTeX

Software

Excel, Word, Outlook, PowerPoint, SharePoint
QNXT, Trapeze

Education

MS, Mathematics

Portland State University
2010 - 2012 | Portland, OR
Focus: Numerical Analysis, Mathematical Analysis, Differential Equations, Graph Theory
Research Paper: *"Numerical methods for ordinary differential equations and their implementation in MATLAB"*

BA, Economics

Minor: Mathematics
Focus: Development, Mathematical Economics, Econometrics, Statistics
Portland State university
2008 - 2010 | Portland, OR

Experience

May 2017 - Present **Operations Analyst 3**

Virginia Premier

- Automated the entry of health risk assessments clearing out a four-month backlog. This is estimated to have saved over 13k productive hours and replaced a team entering them manually.
- Updated systems integration testing utilizing Selenium, generating over 6k test cases where there was normally about 50. This led to over 99% of Transportation claims properly adjudicating.
- Brought Anaconda/Python to Virginia Premier and became the SME for Python at the company. Established Anaconda Working Group to have Python training disseminated to all analysts at the company.
- Was requested by the COO to participate in the Operational Excellence initiative, helping to overhaul benefits configuration in our claims adjudication system for prior authorization requirements and accumulators

Feb. 2015 - Mar. 2017 **AVP, Operations Research Analyst II**

Bank of America

- Role previously performed by various partners, but consolidated into a single role, creating forecasts for seven out of eight of the functions for existing Customer Credit.
- Performed research and presented findings to broader Home Loans Fulfillment Forecasting, Reporting, Analytics and Capacity Planning organization.
- Forecasts showed downward trend in work for the department. This led to the transition of over 50 associates to other roles within the bank over a year and a half long period, leading to significant cost savings due to a reduction in force while preserving jobs.

Dec. 2013 - Feb. 2015 **Credit Quality Analyst**

Bank of America

- Was one of the first employees to join this team, quickly became an SME for the role and helped create a standardization of practices.
- Performed ad-hoc analyses leading to policies that increased outbound contact percentages by 10%.
- Created employee metrics which led to lower overall variance in performance.
- Ran training sessions for new hires and current associates, coached teammates and performed side by sides to ensure compliance with policy and processes.

Feb. 2013 - Dec. 2013 **Home Services Specialist I**

Bank of America

- Performance was recognized by becoming dedicated loan processor for highest grossing mortgage loan officer on west coast.
- Process loan applications for non-conforming, conforming and conforming high-balance first mortgage and combo loan products. Perform initial underwriting of loan applications. Assist coworkers and new hires with questions regarding policies and systems.

Aug. 2012 - Feb. 2013 **MLO-Loan Closer**

Bank of America

- Create final documents for first mortgage purchases and refinancing. Ensure mortgage documentation follows federal and company guidelines. Maintain contact with borrowers to explain steps in closing. Train new hires in closing process.

Research Interests

Geospatial unsupervised learning, time-series forecasting using RNNs/LSTMs, iterative hyperplane fitting.
